ABOUT ME

I'm Nitin Kumar Gautam, a passionate Software Engineer dedicated to building modern, responsive, and user-focused web applications. I enjoy transforming ideas into clean, efficient, and scalable digital solutions through elegant design and quality code. I'm committed to continuous learning, innovation, and delivering impactful experiences that make a lasting impression.

EDUCATION

BPS Public School | 2024

Intermediate with Science Stream

Successfully completed Class 12 with a strong academic foundation, developing analytical thinking, communication, and problem-solving skills while preparing for higher education and a career in technology.

RBS Polytecnic Bichpuri Agra | 2025-2027

Computer Science and Engineering-Persuing

Pursuing a Diploma in Computer Science and Engineering, developing expertise in programming, web development, software engineering, databases, and problem-solving.

WORK EXPERIENCE

Digicoders Technologies

Python Developer

- Developed a modern, responsive website using Bootstrap, featuring a clean user interface, mobile-first design, optimized performance, reusable components, and seamless cross-device user experience.

- Built a responsive calculator using HTML, CSS, and JavaScript, featuring real-time calculations, clean user interface, interactive buttons, accurate operations, and optimized performance.
